

SAVE THE DATE: Chugach Annual Meeting & Member Appreciation Event—May 17

May 17, 2024

Member Appreciation
3 to 6 p.m.

Annual Meeting
6 to 7:30 p.m.

In just four short months, Chugach will be hosting our Annual Meeting and Member Appreciation event. Held at ChangePoint Alaska (6689 ChangePoint Drive), the annual meeting will include reports from the CEO and board of directors on the highlights and priorities of the cooperative. The results of the board election will also be announced.

Prior to the meeting, the annual member appreciation event will once again feature bucket truck rides, power plant tours, educational booths, lunch, and more. Mark your calendars as this is the most important day of the year for Chugach members to interact with their electric cooperative. {98150}

Chugach donates computer equipment to the Anchorage School District

Chugach is donating more than 1,600 pieces of computer equipment including desktop computers, monitors, computer arms, and laptops to the Anchorage School District (ASD).

As part of Chugach's commitment to stay current with the latest technology to ensure security, efficiency, and productivity, we are investing in new computers and associated hardware. Recognizing the values of corporate responsibility and social impact, we are pleased local schools will be able to use the outgoing equipment. Contributing to the learning environment and empowering students with the necessary tools for their education, while ensuring Chugach has a safe and secure computer system, is a win-win for the cooperative and the community.

The first of several computer deliveries to the Anchorage School District warehouse.

Eklutna public meetings held

The owners of the Eklutna Hydroelectric Project, Chugach, Matanuska Electric Association, and the Municipality of Anchorage, held six public meetings in January on the Draft Fish & Wildlife Program. The draft program is part of the agreement signed when the project was purchased in the 1990s, requiring the project owners to first study and then propose a plan to mitigate, protect, and enhance fish and wildlife impacted by the project.

The six public meetings were held in Palmer, Eagle River, and Anchorage. The draft program is open for public comment until February 19. The governor makes the final decision on what program will be implemented, and a

final proposal is expected to go to him in April. The draft program is available at www.eklutnahydro.com and you can submit comments to info@eklutnahydro.com.

Skip the lobby: Kiosk simplifies payment

Chugach members can pay their electric bill 24/7 with a payment kiosk that was installed outside the headquarters building at 5601 Electron Drive in April.

To use the kiosk, you need your member account number (it's on your bill) and a credit card.

The menu will walk you through the process. Over 480 payments were processed through the kiosk from April to December 2023.

"I would absolutely encourage other people to buy ENERGY STAR® appliances. Just in general with the way things are headed in our economy and in the way that appliances are being developed, I think there's going to be a lot of good options on the market soon."

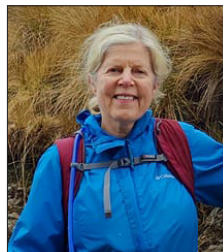

- Kelsey Schober

*Chugach Electric member
Commenting on electric appliances in the home*

From Engineering to Operations to Member Services, all of Chugach's roughly 450 employees live and work in Alaska.

Each month we introduce you to one of our employees who works every day to provide safe, reliable power to our members.

Name: Liv Froholm

Position: Lead Analyst/
Programmer

Time at Chugach: 33 years

Liv says the most challenging part of her job is juggling deadlines. She says she most enjoys constantly learning new things and solving problems.

Clothes dryers make up a large portion of appliance energy

consumption. Clean the lint filter after every use and consider using wool dryer balls. These will separate clothes and get more air to them, cutting drying time. They can also reduce static so you don't need dryer sheets. *Source: energy.gov*
